xx.xx-xx.xx	Public Climate School
28.11.19, 22:00	Maths Party
03.12.19, 19:15	Mulled-WaCe

## Looking for acts!

On the last thursday before christmas, the 19th of december, it's time again for our christmas party! There will be singing, biscuits, mulled wine and a warm meal. We are looking forward to celebrate with you and still looking for acts to fill the evening. Whether poem, music a christmas story written by you... everything! Please contact us, either in person or per email via [info@fsmath.uni-bonn.de](mailto:info@fsmath.uni-bonn.de). Information on how to sign up will be on the next loo paper. Merry pre-christmas season!

## Culture ticket

Maybe some of you are asking themselves what happened to the culture ticket. Starting this semester, you can use it! After presenting your Student ID, you can buy leftover tickets at the box office of many theatres in Bonn. There is an app which tells you, where, when and if you can make use of the culture ticket. For example, you might be able to snatch some tickets at the box office of the Brotfabrik, the Contra-Kreis-Theatre or the Euro Theater Central. Use the option to experience some culture!

## Party

Woop woop! Unlike last time, we will be joined by students of ELW. Huh? ELW? It's an acronym for „Ernährungs- und Lebensmittelwissenschaften“, roughly „food sciences“. The party starts at 22:00 in the N8schicht. You can look forward to free welcome shots! Tickets are 2 euros in the pre-sale (26.11 to 28.11 in the Mensa Poppelsdorf) and 4 euros at the venue. Come over and bring your friends!

## Nice cups

The Fachschaft is trying to become environmentally sustainable. Because of this, we have bought some very nice plastic cups that can be used multiple times; you might have seen them already at one of our events. Cool, isn't it? If you want to get one, you can visit us and leave 1 euro as a deposit. Cheers! Also, Re:sustainability: From xx.xx to xx.xx is the Public Climate School, organized by the students' FFF group. For more information visit [qqq.blabala.de](http://qqq.blabala.de)

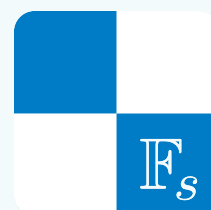

## Riddle

What is the biggest prime number with cross sum 3? The answer will be on the next loo paper.

**Solution of last months riddle:**

Following two possible solutions:

$$9+3+4=8, 8+3+1=0$$
