Calendar

01.10.	**Freshmen** Orientation event
02.10.	**Freshmen** Cocktail evening
03.10.	**Freshmen** Stundenplanberatung
05.10.	**Freshmen** Walk and Chill
07.10.	Start of lecture period
07.10.	**Freshmen** Karaoke- & Game night
07.10.	**Master** Welcome & Campus tour
09.10.	**Master** Wine&Cheese Evening
11.10.	**Freshmen** Wine&Cheese Evening
12.10.	Tutor's training
12./13.10.	**Master** Hiking tour
14.10.	**Freshmen** Scavenger hunt
14.10.	**Master** Sneak preview
15.10.	Game night
16.10.	**Freshmen** Rallye
17.10.	Mental health
18.–20.10.	**Freshmen**trip
22.10.	**Freshmen** Game night with Lecturers
25.10.	Game night
28.10.	Tea Time

The exact times and locations of the events will be announced shortly beforehand. If you are a freshman and still are not in our WhatsApp- or Signalgroup, write us an E-Mail (`erstsemester@fsmath.uni-bonn.de`).

New semester, new chances!

The new winter semester starts on the 1st of October. You can find the current planning status in BASIS (www.basis.uni-bonn.de). An overview of all important dates and contact details for the BaMa office, which you can contact at any time if you have any questions, can be found at BaMa office (www.mathematics.uni-bonn.de/study/contact) or send us an email We wish you lots of fun and success in the new semester!

Instagram:	`fsmath.uni.bonn`

What even is the "Fachschaft"?

In German the "Fachschaft Mathematik" is actually defined as the set of all mathematics students (in Bonn). Therefore, if you are reading this, you are probably an element of it. In most cases though, it describes the student council: an open circle of very involved students who regularly organise events for you, sit on many committees to represent your interests and write informative texts like this one.

So if you have any problems, questions, suggestions etc.: approach us anytime! We are there in order to help you. You want to **contribute**? Join one of our meetings - Everyone is welcome! For further information and access to our Mattermost server, please send us an e-mail

FSR-meeting:
(FSR means Fachschaftsrat (literally Council of the Fachschaft).)
Wed, 18 c.t. in the Math Centre, room 0.011

Check it out!!!

Tea Time

On the 28th of October there will be a Tea Time with Women in Mathematics from 3-5pm. You have never been to a Tea Time? The intention of the Tea Time is to connect FINTA*-people and give them the opportunity to exchange their experiences as a minority in mathematics in a secure environment. Sometimes we invite speakers, this time it will be mainly about networking and meeting your lecturers. Come join us over a cup of tea!

Group Talk

Are you struggling with any mental health issues which make the semester especially hard for you? On Thursday the 17th of October we (the mental health department of the Fachschaft/Student council) invite you to join us to discuss these topics over a cup of tea and some cookies in order to share our experiences and tackle our problems. You'll be able to join a group out of two which will

either be held in German or English! Everybody is welcome to join no matter if you want to actively share your experiences or just silently participate! Further information follow soon.

Welcome Master-Freshmen!

Welcome to Bonn university! We, the student council (in German Fachschaft), will be organizing events for you to have an easier and more fun start of your Master studies. We are planning several events for you to get to know other Master students, such as a Master Welcome and a Wine and Cheese evening in the first lecture week. The Monday after that we will go to a sneak preview in the cinema WOKI. The details about the events and everything you can read here and also be found on our homepage (switch to English to see Master events). Please take a look into the Master-Information - there are lots of helpful articles written for you. We look forward to a lot of great events and hope that you enjoy your studies here!

Master Events

Master Welcome: On Monday, the 7th of October at 6 p.m., we will have an evening planned, where you can get to know each other. We will be doing some fun games but there will also be plenty of time to talk to people and find fellow students that take the same lectures as you. We will be providing some free snacks and drinks at cost price. In the last years this was much fun, so come around and join us!
Master WaCE: On the 9th of October at 7 s.t. be ready for a nice evening – the WaCe! It stands for „Wine and Cheese evening " – A divine combination. We will provide you with free cheese and baguette, in addition you will be able to buy inexpensive wine from us. Cheers!

Sports at university

Next semester, you have the opportunity to participate in the university sports program! You can get a semester card (10 Euros) with which you can use the university's sports facilities and register for sport courses starting at October 3rd. There's a broad selection and something for everyone. More information is available at sport.uni-bonn.de.

Campo Mensa

Between 11:30 and 14:30 (fridays until 14:00) you can get lunch, and the café has opened between 8:00 and 15:00. Besides places to sit either in or outside, one can also take their meal to-go (you need the Relevo App). If you don't have a Mensa card yet, you can pick one up at the AStA or directly at Café Campo. You can only pay with a Mensa or debit card.

Joke of the month

An chemist, a physicist, and a mathematician are stranded on an island when a can of food rolls ashore. The chemist and the physicist comes up with many ingenious ways to open the can. Then suddenly the mathematician gets a bright idea: "Assume we have a can opener ..."

Riddle of the month

The digits 1, 2, 3, 4 and 5 can be arranged to form many different 5-digit integers with five distinct digits. In how many such integers is the digit 1 to the left of the digit 2? Two such integers to include are 14352 and 51234. The solution will be on the next Loo Paper.

Solution to the last riddle:
After 200km, the trader still has 2000 bananas left (after he traveled the distance five times), after 533km still 1001 bananas (after he traveled this distance thrice; the trader snacks one banana after that) and hence, after 1000km he still has 533 bananas.
