Calendar

- 01.11. all saints day
- 07.11. **Freshmen**-Experience-event
- 07.11. Differnet Dimensions of mental health
- 08.11. Integration Bee
- 12.11. Game night
- 13.-23.11. **Freshmen** Registration for the bachelor exam
- 21.11. WaCe
- 29.11. LGBTQ+ Event

Come by!

The semester is finally in full swing and we have a few events planned for you this month to pass the time! On 07.11. at 19 s.t. there will be a **Freshmen experience event** in the large lecture hall. Current and former math students will talk about their experiences and challenges in math studies and how they dealt with them. On 08.11. the **Integration Bee** will start from 4pm in the Wegelerstr. 10. More information and registration under bibee.rocks. On 12.11. many board and card games will be played at our **game night** and new ones are always welcome. On 21.11. at 19 s.t. there will be another **WaCE**, a wine and cheese evening. There will be good and better wine in white or red and of course grape juice. You can also feast on cheese with grapes, hummus and bread and enjoy your evening. You can always find up-to-date information on all events on our website (fsmath.uni-bonn.de/home.html).

LGBTQ+

Do you identify with a specific gender? Why though? On October 29, Solveig (none or hen/hens pronouns) will give us an insight into non-binary perspectives on gender and sex in about 45 minutes. No prior knowledge is required, Solveig will speak in German and summarize key points in English. Afterwards there will be the opportunity to discuss the topic in smaller groups and spend time with other interested people over tea and cookies. We start at 15 c.t. with the talk in the Lipschitzsaal. See you then! Your LGBTQ+ Department

Tutor wanted!

Would you like to offer a \LaTeX course in the next semester break? In cooperation with the computer science, we want to offer both a beginner's course and an advanced course. You are interested? Contact us via kurse@fsmath.uni-bonn.de!

FSV-Election

It's that time of the year again, in December, you can vote for the FSV, the student representatives for mathematics, and naturally, you can also stand as a candidate! The **deadline for handing in candidacies** will probably be the **26.11.** at **6pm**, you can find further information later under fsmath.uni-bonn.de/wahl_info.html. We look forward to the highest possible candidacy- and voter turnout.

Dimensions of Mental Health

We have planned multiple events in the area of Mental Health for you. If you are wondering what this has to do with your math studies, or how you can support your friends, you can learn about that at "Different Dimensions of Mental Health", on 06.11. in the Lipschitzroom. We have invited speakers to give talks about various topics, and there will be time for discussions. Lastly, if you or somebody you know is struggling, there are many offers you can reach out to. We have collected some on our website. Remember, it is always okay to ask for help!

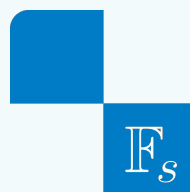

Riddle of the month

There are 1000 wine bottles. One of the bottles contains poisoned wine. A rat dies after one hour of drinking the poisoned wine. How many minimum rats are needed to figure out which bottle contains poison in hour?

The solution will be on the next Loo Paper.

Solution to the last riddle:

There are 60 permutations.
