- 16.01. Presentation of S1G1 seminars
- 20.01. Game night × Computer Science
- 28.01. TVStud action day
SWaffles
Lecture presentation (Part 2)

Events

We are delighted to welcome you to the start of the new year with a **Cocktail evening**! This will take place on Tuesday, 13 January. This will be followed by a **Chess tournament** on 14 January. On 20 January, we will be hosting a **Game night** together with the Computer Science student council at the **CS institute**, so come on by! We will conclude our events with a **SWaffle** on 28 January, where we will be providing free waffles for you in the student council office starting at 14:00 to enjoy while you study.

TVStud university action day

You have probably already heard about the ongoing collective bargaining negotiations or the recently decided cuts for universities. These negotiations focus in particular on good working and studying conditions at universities.

That is why unions and the fzs (*Freier Zusammenschluss der Studierendenschaften*) are mobilising for a nationwide university action day on **28 January**. Together, we want to take to the streets to demand collective agreements for student employees, permanent positions for permanent tasks and fair pay for all employees.

In Bonn, we will start at **10:00** at the Platz der Studierenden on the Poppelsdorf campus.

♥ Happy New Year 2026! ♥

New representatives

On 17 December, the Fachschaft got newly constituted. Thanks to all of you who voted! In the following we want to introduce you to the managing people: The Fachschaftsvertretung (FSV) is being lead by Paul Robaschik as chairman and Jan Malmström as his deputy. At the top of the Fachschaftsrat (FSR) is Roxana Mittelberg as chairwoman, Emma Zenker as deputy and Lorenzo Nastase as treasurer. We wish everyone a great term!

Comic of the month

Source: xkcd.com/2866

Riddle of the month

Jan and Paul are playing the following game: There is a number written on the board. The player whose turn it is adds one of the number's divisors to the number on the board, but not the number itself, and replaces the number on the board with the sum obtained. The first player who has to write a number greater than 2026 loses the game. At the beginning, the number 2 is written on the board, and Jan starts. Who can force a win? The solution will be on the next Loo Paper.

Solution to the last riddle:

Only 2025, 3025 and 9801 have this property.
